Some Creative Commons and pre-licensed resources that may help you find suitable content for your open educational resources include:

- [Wikimedia Commons Links to an external site.](#) – is a repository of freely available images and media files (either in the public domain or available under a free licence such as a Creative Commons licence)
- [Pixabay Links to an external site.](#) – is a database of free images and videos made available under the Pixabay licence. Pixabay also advertises images for purchase, so it is important to check the licence every time you select an item.
- [Videvo Links to an external site.](#) – is a database of stock videos, motion graphics, music tracks and sound effects made available under a Royalty-Free Licence or a Videvo Attribution Licence. If you use the Attribution Licence, you must credit the artist in your work. Some Videvo content is free, premium content requires a subscription.
